Foodservice Establishment Plan Review Application

The Virginia Food Regulations require the submission of plans for review and approval prior to: “the construction of a food establishment; the conversion of an existing structure for use as a food establishment; or the remodeling of a food establishment...” (12 VAC 5-421-3600). The fees are \$40.00 for foodservice plan review and \$40.00 for foodservice permit application/issuance.

This Foodservice Establishment Plan Review Application has been developed to assist permit applicants or permit holders in submitting the information required for a thorough plan review. A good review of plans helps to avoid future problems. By listing and locating equipment on floor plans and diagramming specifications for electrical, mechanical and plumbing systems, potential problems can be spotted while still on paper and modifications made BEFORE costly purchases, installation and construction.

The foodservice plan review process is intended to assist foodservice operators in the approval process for their proposed foodservice facilities, food handling procedures, building permit, and foodservice establishment permit.

Please refer to the *Thomas Jefferson Health District Foodservice Establishment Plan Review Guide* for guidance in completing the application. This document can be found on the Thomas Jefferson Health District website:

www.vdh.virginia.gov/LHD/ThomasJefferson/environmental/forms.htm

If you have questions about the review process or wish to schedule a plan review conference please call (434) 972-6259.
